

DIGITAL HOLIDAY STATIONERY

INSTRUCTIONS:

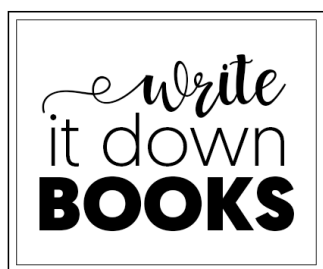

Are you ready to brighten someone's day?

On the following pages you will find the stationery options. Simply swipe through to find the sheet you wish to use. Then write or type your message. Drag in photos and stickers too, and make it extra special.

When you are ready to send, select the Send/Export Button in your toolbar for whichever app you are using. Be sure to only export the current page, not the entire document.

You will be given a choice to send this as an image or pdf. Choose "IMAGE". Images look the best in both text messages and email. Finally send your note in an email or text!

Have fun!

Have fun making someone's day brighter with these stationery templates. Please use coupon code "THANK10" anytime you visit my shop.
