INFORMATION

Hello and welcome to your new notebook! On the following two pages I have provided instructions to help you learn all that this notebook has to offer. Remember, this pdf will work on any app that supports annotated PDFs and duplicating pages. It has been tested and used on GoodNotes, Notability and Noteshelf. This is a FREE download, so many options are limited and is for personal use only.

ORIENTATION:
What makes this notebook unique is that it has been designed to be used in both portrait and landscape orientation. No matter how you use your iPad this notebook will work perfectly. Watch the video on my site to see how.

NOTEBOOK STYLES:
Included with this free download and all paid versions are 5 different notebook styles: Gold Coil, Silver Coil, Rose Gold Coil, Black Coil and No Coil. Be sure to download all of them!

PAPER OPTIONS:
Tap on the Paper Tab to browse all of the paper templates included with this notebook. When you find one you would like to use, simply copy the page and add it after the tab you have chosen. Remember pages are unlimited and can be duplicated as many times as you wish!

EXTRA COVERS:
In the paper options section, I have included 6 extra covers with the paid version. In the free version, there is 1 included cover. If you prefer to have a Portrait Cover, I have some free covers on my website to download, or you can visit my shop for a wider selection.

TABLE OF CONTENTS:
Go to this tab to create a helpful index for your notebook. Each colored heading links to and corresponds to the coordinating, hyperlinked divider tab. Use the additional lines provided to list each tab's pages.

QUICK NOTE:
Select the Quick Note Tab to jot down all of those random thoughts and ideas you have. There is also a nice blank space for drawing or pasting images.

STICKERS:
Visit the Sticker Tab for a dedicated space to place your favorite, most used stickers. A GoodNotes sticker sheet and a zip file containing individual PNG images are included with the paid version only.

- If you are using this notebook in Portrait Mode and decide to clear the page, remember it will clear the other side of the page too!
